

Le Corbusier Office Region – Cezanne Housing in Vasant Vihar D-Block

By Shomit Sirohi

The Le Corbusier office region then is organised in blocks, which means blocks and housing region which are just office blocks and then I add Cezanne which means a colourful approach to work life.

Cezanne argues in the space – it reflects the office life of the space and ecological living which is because it is about office and naturalistic buildings with plants and leaves which is a way of reflecting naturalism.

Cezanne is a naturalist – one naturally lives in office life.
